

THE MAINE FARMER: AN AGRICULTURAL AND FAMILY NEWSPAPER.

August, Thursday, Feb. 2, 1865.

TERMS OF THE MAINE FARMER. \$2.50 in advance, or \$5.00 if not paid within six months of the date of subscription.

NOTICES. Mr. J. A. BROWN is now on a collecting and canvassing tour for the Maine Farmer.

FARMERS AND MECHANICS TO THE RESCUE. On the outside front of this paper we have called your attention to the subject of the establishment of an Industrial College, by the liberal appropriation of Congress for that purpose.

BOARD MET AT THE USUAL HOUR. President in the chair. Journal of yesterday read and approved.

MR. JACQUIN presented a report on the "Study of Agriculture in our Common Schools," which was read, accepted and assigned to Monday for further consideration.

MR. FRENCH from Topic No. 15—"What methods of tillage are best adapted to the system of mixed farming usually in this State," presented his report, which was accepted.

MR. JACQUIN presented the late plowing of land in connection with grass, as the surest way of destroying it. Late plowing also benefits the land by turning it up to the action of the frost.

MR. BIGLOW inquired if rollers generally, except upon sandy soils, are not a source of injury to the soil. The Chairman remarked that in his section the drag and brush harrow were more generally used than the roller.

MR. JEFFERSON regarded the roller as beneficial on our gravelly lands. Grass seed will catch better if pressed down, and the action of frost will be less severe upon the roots.

MR. JACQUIN thought a roller of advantage in pressing small stones into the ground, and leveling the surface.

MR. SMITH gets a much better catch of grass after rolling, especially in dry seasons. Was in favor of using the roller upon the furrow after plowing soil, as it presses it down and will not injure the soil.

A somewhat lengthy discussion has been entered into, regarding the characteristics of withgrass, and concerning its being a pest, or an advantage to the farmer. The general opinion was, that it was a pest in cultivation—but made a valuable grass if cut early.

MR. JACQUIN presented the credentials of Hon. John C. Talbot of East Machias, as a member of the Board of Agriculture from Washington county, which was referred to the Committee on Elections, who subsequently reported him free to a seat at the Board.

MR. FRENCH of Ansonia, presented a report upon Topic No. 3—"What rational objection exists to the use of cow as a source of draft?" which was once read, and accepted and assigned to Monday for further consideration.

On motion of Mr. CHAMBERLAIN the Board went into informal session, for the purpose of hearing a communication from Hon. CHAS. JARVIS of Ellsworth.

MR. JARVIS was introduced by the President, and remarked that much attention had been given to the subject of cow as a source of draft, and that he had been thinking of the matter had not received the very thoughtful of those making it, and that they were all acquainted with the wants of the farmers and the requirements of the bill.

MR. JARVIS was introduced by the President, and remarked that much attention had been given to the subject of cow as a source of draft, and that he had been thinking of the matter had not received the very thoughtful of those making it, and that they were all acquainted with the wants of the farmers and the requirements of the bill.

The War News of the Week.

Since the capture of Fort Fisher, and the closing of Cape Fear river to the rebel blockade runners, no important event has occurred, except an attempt made by the rebel iron-clads and gunboats in the James river, on the night of the 24th ult., to pass the obstructions above City Point, and destroy our depot of supplies and works at that place.

The rebel vessels succeeded in passing our batteries on the north side of the river unnoticed, until they approached the line of forts above Bermuda Hundred, when our guns were opened upon them, but with little effect. The iron clads across the river at this point was out by a torpedo boat, and one of the iron-clads, the Fredericksburg, crowding on full steam, pushed her way through the remaining obstructions into the open channel below.

The other vessels of the rebel fleet were not so fortunate. Several of them ran aground, and the Fredericksburg finding herself alone, thought it prudent to turn back to the assistance of her consort. One of the iron-clads was blown up, and the other vessels of the fleet, having succeeded in getting aground, made the best of their way back to Richmond.

We have no intelligence since our last of the progress of Gen. Sherman's movement in Georgia. The army of the Tennessee under Gen. Howard still occupies the important position at Poolsville, and the other corps of Gen. Sherman's army are moving forward on another route of co-operation.

All the rebel forts and defenses at the mouth of Cape Fear river have been blown up and abandoned by the enemy, giving us entire possession and control of the river below Wilmington. The rebel press do not conceal their apprehensions of the ultimate occupation of the city by Gen. Terry, and the capture of the immense amount of stores stored there.

The only result of the second mission of Mr. Blair to Richmond seems to have been to obtain from Jeff. Davis an expression of his willingness to send commissioners to Washington to negotiate a peace on the basis of rebel independence. This behavior to come up firmly and promptly to the establishment of your claims and the preservation of your rights. Be quick or all is lost.

MR. ISAAC J. MEAD of this city will deliver his lecture on "Success" in Hallowell, on Tuesday evening of the present week. The lecture was recently delivered in Gardiner to a large and intelligent audience, and we are informed by those who were present that it was well received and gave general satisfaction.

MR. JACQUIN presented the credentials of Hon. John C. Talbot of East Machias, as a member of the Board of Agriculture from Washington county, which was referred to the Committee on Elections, who subsequently reported him free to a seat at the Board.

MR. FRENCH of Ansonia, presented a report upon Topic No. 3—"What rational objection exists to the use of cow as a source of draft?" which was once read, and accepted and assigned to Monday for further consideration.

CONGRESSIONAL.

In the Senate on Tuesday last Mr. Sumner offered a substitute for the resolution in relation to retaliation upon rebel prisoners for cruel treatment to Union prisoners. The amendment repudiates retaliation as inconsistent with the usages of civilized society, and as unseemly and barbarous, having no other end than vengeance; it declares that the treatment of our officers and men in rebel prisons is cruel and heartrending, and shocking to morals, an offense against human nature itself, adding new guilt to the great crime of rebellion, and constituting an example from which history will turn with sorrow and disgust.

On Wednesday the question of retaliation was again considered in the Senate, and various amendments offered, but no vote taken. The deficiency bill was defeated, the two houses disagreeing upon its provisions. In the House the resolution of thanks to Gen. Sheridan was passed. On Thursday, in the Senate the bill authorizing the Secretary of the Treasury to issue Treasury notes instead of bonds was passed. The Military Academy and Post Office appropriation bills were passed. The consideration of the resolution authorizing retaliation was resumed but no action taken. In the House, the Committee on Ways and Means reported a new deficiency bill in place of the one defeated in the Senate. It contains an appropriation of \$38,000 for extra compensation of House officials. The bill was passed. A bill was introduced proposing to place a tax on National bank issues. Referred to the Committee on Ways and Means.

MR. SUMNER'S RESOLUTION. A large number of officers and soldiers belonging to Maine regiments are confined in the rebel prison at Danville, Va. The following members of the 16th Maine were captured in the fight on the Weldon Railroad near Petersburg on the 8th of August: Adj. A. R. Small, Lt. W. H. Brown, W. H. Chapman and Atwood Fitch. Sgt. J. H. Fisher, of Westport; Sgt. W. Fennell, of Mt. Desert; Sgt. Thos. D. Withers, Bangor; Privates Henry A. Chandler, Somerset; John Farley, Hallowell; J. Lewis Gilbert, Trenton; Jasper H. Trask, Passadumcook; George Smith, Limerick; W. E. Annis, Hallowell; Martin L. Whitton, Newry; Henry A. Hall, Lagrange; Chas. R. Atkins, Dennis A. Jenkins. The following members of the D. C. Cavalry belonging to Maine are also reported at Danville: Augustus Marks, Captain Brennan, Jas. H. Moser, Cyrus T. Bassett, Elijah L. Merrill, Horace W. Varney, Morris L. Morse, Samuel Plummer, Clement P. Plummer, George Stevens.

MR. SUMNER'S RESOLUTION. A large number of officers and soldiers belonging to Maine regiments are confined in the rebel prison at Danville, Va. The following members of the 16th Maine were captured in the fight on the Weldon Railroad near Petersburg on the 8th of August: Adj. A. R. Small, Lt. W. H. Brown, W. H. Chapman and Atwood Fitch. Sgt. J. H. Fisher, of Westport; Sgt. W. Fennell, of Mt. Desert; Sgt. Thos. D. Withers, Bangor; Privates Henry A. Chandler, Somerset; John Farley, Hallowell; J. Lewis Gilbert, Trenton; Jasper H. Trask, Passadumcook; George Smith, Limerick; W. E. Annis, Hallowell; Martin L. Whitton, Newry; Henry A. Hall, Lagrange; Chas. R. Atkins, Dennis A. Jenkins.

Teachers for the Freedmen.

SOUTH FREEPORT, Jan. 24. MESSRS EDITORS.—Letters like the following are constantly received. Will you allow me space to reply and thus save labor and time required in correspondence? Yours truly C. PEARL.

Mr. PEARL.—Dear Sir: I have read your circular "Help the Freedmen" and am certain it will be responded to by many. I am a teacher for the Association what must be done, I am willing to become a teacher if I can in any way use the cause of humanity, I wish you to give me the desired information. Yours respectfully.
